

Hanging Instructions – Hand-Printed Wallpapers

PROFESIONAL INSTALLATION REQUIRED

These Hand-printed wallpapers and borders **MUST** be installed by a skilled, experienced hand printed Wallpaper professional installer.

1. Before You Begin

- **Check your order:** Ensure you received the correct number of rolls; each batch is uniquely hand-printed.
- **Inspect:** Check for defects before trimming or applying treatments. Variations in shade and texture are natural. **Claims will not be accepted after cutting or alteration.**
- **Trimming:** Rolls come pre-trimmed to help with any installation (Anna Maria, Roseanna and Venetian Damask must be trimmed on-site).

2. Wall Preparation

- Remove old wallpaper. Clean, dry, smooth walls free of dust, grease, or damp.
- Prime absorbent surfaces with a quality primer sealer.
- On painted walls (gloss, eggshell, oil-based), wash, scuff for adhesion, and seal.
- Apply 1000-grade lining paper horizontally; allow to dry completely.

3. Adhesive & Soaking

- ONLY Use high-quality ready-mixed tub paste. **On no account should self-mix paste be used.**
- Allow **4 minutes maximum** for soaking, just enough for the paper to soften and expand. Avoid over-soaking. **If over soaked the paper will split and deteriorate**
- **DO NOT OVER SOAK. TRIAL ON THE EXTRA ONE METRE PROVIDED IS RECOMMENDED.**

4. Hanging Guidelines

- Hang rolls in numbered order if indicated.
- Paste and hang one length at a time. **NO DOUBLE PASTING** – this can cause discoloration and create over soaking.
- Butt joints tightly; do not overlap.
- **Avoid paste contact with the printed surface.** If it occurs, gently remove immediately with a clean, cold damp sponge. do not scrub, do not use any detergents nor soap.
- Use felt or mohair roller to smooth or high-quality paperhanging brush.
- **HANDLE CAREFULLY:** all our papers have a protection coating but will still mark easily, if not handled carefully.
- Slight seam variations are normal. Plan layout to balance heavy edges and enhance visual flow.

Important

Due to conditions beyond our control, this guidance is provided in good faith but without warranty. We cannot accept and decline any responsibility for mis handling of our papers during the hanging process nor the choice of professionals to do so.
