GEORGE SPENCER DESIGNS

Venetian Damask

Reference: 617H

Venetian Damask is a striking design inspired by the Spitalfield silks of the 18th century. This wallpaper features an abstract damask pattern of ceremonial style flowers against a plain background. The design has an almost 3D effect which adds character and personality to interiors. Available in six colourways or in custom colours. Made in England, George Spencer Designs' hand block printed wallpapers have an exceptional handmade quality and stand-out depth of natural colour. Venetian Damask requires two widths to realise the full design.
